# Time Capsule

## What is a time capsule?

A time capsule is like a frozen snapshot of time. This time capsule will be opened in five years, when you have completed your secondary school life and GCSE examinations. You will be 16 years old and will be able to look back on your 11-year-old self – at the start of your secondary school journey! You will be able to look back on life see how your life and the world has changed since then.
