

The Fernwood School

High Achievement with Care & Discipline for All"

ONLINE SAFETY POLICY

This policy will be monitored regularly and evaluated so that it remains responsive to current issues. This will be co-ordinated by the Assistant Headteacher, Pastoral.

Approved: May 2025
Next review: May 2027
Status: Non-Statutory

1. Aims

Our school aims to:

- ✿ Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- ✿ Identify and support groups of pupils that are potentially at greater risk of harm online than others
- ✿ Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology (which we refer to as 'mobile phones')
- ✿ Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

The four key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- ✿ **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- ✿ **Contact** – being subjected to harmful online interaction with other users, such as peer-to-peer pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- ✿ **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- ✿ **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

2. Legislation and guidance

This policy is based on the Department for Education's (DfE's) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

✿ [Teaching online safety in schools](#)

✿ [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)

✿ [Relationships and sex education](#)

✿ [Searching, screening and confiscation](#)

It also refers to the DfE's guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils' electronic devices where they believe there is a 'good reason' to do so.

The policy also takes into account the National Curriculum computing programmes of study.

This policy complies with our funding agreement and articles of association.

3. Roles and responsibilities

3.1 The governing board

The governing board has overall responsibility for monitoring this policy and holding the headteacher to account for its implementation.

The governing board will make sure all staff undergo online safety training as part of child protection and safeguarding training, and ensure staff understand their expectations, roles and responsibilities around filtering and monitoring.

The governing board will also make sure all staff receive regular online safety updates (via email, e-bulletins and staff meetings), as required and at least annually, to ensure they are continually provided with the relevant skills and knowledge to effectively safeguard children.

The governing board will co-ordinate regular meetings with appropriate staff to discuss online safety, requirements for training, and monitor online safety logs as provided by the designated safeguarding lead (DSL).

The governing board should ensure children are taught how to keep themselves and others safe, including keeping safe online.

The governing board must ensure the school has appropriate filtering and monitoring systems in place on school devices and school networks, and will regularly review their effectiveness. The board will review the DfE filtering and monitoring standards, and discuss with IT staff and service providers what needs to be done to support the school in meeting those standards, which include:

- ✿ Identifying and assigning roles and responsibilities to manage filtering and monitoring systems
- ✿ Reviewing filtering and monitoring provisions at least annually
- ✿ Blocking harmful and inappropriate content without unreasonably impacting teaching and learning
- ✿ Having effective monitoring strategies in place that meet their safeguarding needs

The governor who oversees online safety is Stephen Deadman-Corsie.

All governors will:

- ✿ Ensure they have read and understand this policy
- ✿ Agree and adhere to the terms on acceptable use of the school's ICT systems and the internet
- ✿ Ensure that online safety is a running and interrelated theme while devising and implementing their whole-school or college approach to safeguarding and related policies and/or procedures
- ✿ Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with special educational needs and/or disabilities (SEND). This is because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

3.2 The headteacher

The headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

3.3 The designated safeguarding lead

Details of the school's designated safeguarding lead (DSL) and deputies are set out in our child protection and safeguarding policy, as well as relevant job descriptions.

The DSL takes lead responsibility for online safety in school, in particular:

- ✿ Supporting the headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- ✿ Working with the headteacher and governing board to review this policy annually and ensure the procedures and implementation are updated and reviewed regularly
- ✿ Taking the lead on understanding the filtering and monitoring systems and processes in place on school devices and school networks
- ✿ Working with the ICT manager to make sure the appropriate systems and processes are in place
- ✿ Working with the headteacher, ICT manager and other staff, as necessary, to address any online safety issues or incidents
- ✿ Managing all online safety issues and incidents in line with the school's child protection policy
- ✿ Ensuring that any online safety incidents are logged and dealt with appropriately in line with this policy
- ✿ Ensuring that any incidents of cyber-bullying are logged and dealt with appropriately in line with the school behaviour policy
- ✿ Updating and delivering staff training on online safety (appendix 1 contains a self-audit for staff on online safety training needs)

- ✿ Liaising with other agencies and/or external services if necessary
- ✿ Providing regular reports on online safety in school to the headteacher and/or governing board
- ✿ Undertaking annual risk assessments that consider and reflect the risks children face
- ✿ Providing regular safeguarding and child protection updates, including online safety, to all staff, at least annually, in order to continue to provide them with relevant skills and knowledge to safeguard effectively

3.4 The ICT manager

The ICT manager is responsible for:

- ✿ Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems on school devices and school networks, which are reviewed and updated at least annually to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- ✿ Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- ✿ Conducting a full security check and monitoring the school's ICT systems on regular basis
- ✿ Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
- ✿ Ensuring that any online safety incidents are logged and dealt with appropriately in line with this policy
- ✿ Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy

3.5 All staff and volunteers

All staff, including contractors and agency staff, and volunteers are responsible for:

- ✿ Maintaining an understanding of this policy
- ✿ Implementing this policy consistently
- ✿ Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet, and ensuring that pupils follow the school's terms on acceptable use
- ✿ Knowing that the DSL is responsible for the filtering and monitoring systems and processes, and being aware of how to report any incidents of those systems or processes failing by reporting via the ICT helpdesk and/or CPOMs if there is a safeguarding element to the incident.
- ✿ Following the correct procedures by alerting the ICT Services team if they need to bypass the filtering and monitoring systems for educational purposes
- ✿ Working with the DSL to ensure that any online safety incidents are logged and dealt with appropriately in line with this policy

- ☛ Ensuring that any incidents of cyber-bullying are dealt with appropriately in line with the school behaviour policy
- ☛ Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline, and maintaining an attitude of 'it could happen here'

3.6 Parents/carers

Parents/carers are expected to:

- ☛ Notify a member of staff or the headteacher of any concerns or queries regarding this policy
- ☛ Ensure their child has understood and agreed to the terms on acceptable use of the school's ICT systems and internet

Parents/carers can seek further guidance on keeping children safe online from the following organisations and websites:

- ☛ What are the issues? – [UK Safer Internet Centre](#)
- ☛ Hot topics – [Childnet International](#)
- ☛ Parent resource sheet – [Childnet International](#)

3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use.

4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum.

The text below is taken from the [National Curriculum computing programmes of study](#).

Academies that don't follow the National Curriculum should adapt this section to include details of how online safety forms part of their own curriculum.

It is also taken from the [guidance on relationships education, relationships and sex education \(RSE\) and health education](#).

All schools have to teach:

- ☛ [Relationships education and health education](#) in primary schools
- ☛ [Relationships and sex education and health education](#) in secondary schools

In **KS3**, pupils will be taught to:

- ☛ Understand a range of ways to use technology safely, respectfully, responsibly and securely, including protecting their online identity and privacy
- ☛ Recognise inappropriate content, contact and conduct, and know how to report concerns

Pupils in **KS4** will be taught:

- ☞ To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- ☞ How to report a range of concerns
- ☞ To understand how changes in technology affect safety, including new ways to protect their online privacy and identity
- ☞ How to report a range of concerns
- ☞ All Fernwood pupils undertake the KS4 Computing for All program covering the topics identified above through circle time activities and discussions.

By the **end of secondary school**, pupils will know:

- ☞ Their rights, responsibilities and opportunities online, including that the same expectations of behaviour apply in all contexts, including online
- ☞ About online risks, including that any material someone provides to another has the potential to be shared online and the difficulty of removing potentially compromising material placed online
- ☞ Not to provide material to others that they would not want shared further and not to share personal material which is sent to them
- ☞ What to do and where to get support to report material or manage issues online
- ☞ The impact of viewing harmful content
- ☞ That specifically sexually explicit material (e.g. pornography) presents a distorted picture of sexual behaviours, can damage the way people see themselves in relation to others and negatively affect how they behave towards sexual partners
- ☞ That sharing and viewing indecent images of children (including those created by children) is a criminal offence that carries severe penalties including jail
- ☞ How information and data is generated, collected, shared and used online
- ☞ How to identify harmful behaviours online (including bullying, abuse or harassment) and how to report, or find support, if they have been affected by those behaviours
- ☞ How people can actively communicate and recognise consent from others, including sexual consent, and how and when consent can be withdrawn (in all contexts, including online)

The safe use of social media and the internet will also be covered in other subjects where relevant.

Where necessary, teaching about safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND. This may include one to one work from the study support team, Well-being Mentors or DSL team (including Pastoral Practitioners).

5. Educating parents/carers about online safety

The school will raise parents/carers awareness of internet safety in letters or other communications home, and in information via our website. This policy will also be shared with parents/carers.

If parents/carers have any queries or concerns in relation to online safety, these should be raised in the first instance with the relevant Head of Year or the DSL.

Concerns or queries about this policy can be raised with the DSL or the headteacher.

6. Cyber-bullying

6.1 Definition

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power (see also the school behaviour policy).

6.2 Preventing and addressing cyber-bullying

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Teachers will discuss this with classes in their Personal Development lessons.

Teaching staff are encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. Pastoral staff are also encouraged to look for opportunities to raise cyber bullying through the pastoral curriculum. This may include assemblies and circle time.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training (see section 11 for further information).

The school also sends any relevant information/leaflets on cyber-bullying to parents/carers so they are aware of the signs, how to report it and how they can support children who may be affected.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSL will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

6.3 Examining electronic devices

The headteacher, and any member of staff authorised to do so by the headteacher, can carry out a search and confiscate any electronic device that they have reasonable grounds for suspecting:

- ☞ Poses a risk to staff or pupils, and/or
- ☞ Is identified in the school rules as a banned item for which a search can be carried out, and/or
- ☞ Is evidence in relation to an offence

Before a search, if the authorised staff member is satisfied that they have reasonable grounds for suspecting any of the above, they will also:

- ☞ Make an assessment of how urgent the search is, and consider the risk to other pupils and staff. If the search is not urgent, they will seek advice from the Headteacher, DSL or other member of the Senior Leadership Team.
- ☞ Explain to the pupil why they are being searched, how the search will happen, and give them the opportunity to ask questions about it
- ☞ Seek the pupil's co-operation

The Headteacher may examine, and in exceptional circumstances erase, any data or files on an electronic device that they have confiscated where they believe there is a 'good reason' to do so.

When deciding whether there is a 'good reason' to examine data or files on an electronic device, the staff member should reasonably suspect that the device has, or could be used to:

- ☞ Cause harm, and/or
- ☞ Undermine the safe environment of the school or disrupt teaching, and/or
- ☞ Commit an offence

If inappropriate material is found on the device, it is up to the DSL or relevant senior leader to decide on a suitable response. If there are images, data or files on the device that staff reasonably suspect are likely to put a person at risk, they will first consider the appropriate safeguarding response.

When deciding if there is a good reason to erase data or files from a device, the Headteacher will consider if the material may constitute evidence relating to a suspected offence. In these instances, they will not delete the material, and the device will be handed to the police as soon as reasonably practicable. If the material is not suspected to be evidence in relation to an offence, staff members may delete it if:

- ☞ They reasonably suspect that its continued existence is likely to cause harm to any person, and/or
- ☞ The pupil and/or the parent/carer refuses to delete the material themselves

If a staff member suspects a device may contain an indecent image of a child (also known as a nude or semi-nude image), they will:

- ❖ **Not** view the image

- ❖ Confiscate the device and report the incident to the DSL (or equivalent) immediately, who will decide what to do next. Complete an incident on CPOMs. The DSL will make the decision in line with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any searching of pupils will be carried out in line with:

- ❖ The DfE's latest guidance on [searching, screening and confiscation](#)

- ❖ UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

- ❖ The behaviour policy

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

6.4 Artificial intelligence (AI)

Generative artificial intelligence (AI) tools are now widespread and easy to access. Staff, pupils and parents/carers may be familiar with generative chatbots such as ChatGPT and Google Bard.

The Fernwood School recognises that AI has many uses to help pupils learn, but may also have the potential to be used to bully others. For example, in the form of 'deepfakes', where AI is used to create images, audio or video hoaxes that look real.

The Fernwood School will treat any use of AI to bully pupils in line with our behaviour policy.

The use of AI is being explored in school. Staff should not upload any data to this and we will continue to develop how it can be used safely and effectively in school.

7. Acceptable use of the internet in school

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above and restrict access through filtering systems where appropriate.

8. Pupils using mobile devices in school

Pupils are not permitted to bring mobile phones into school. In rare cases, a parent/carer can write to the relevant Head of Year if there are exceptional circumstances that require their child to have a phone. In these cases, phones must be handed in before school and collected at the

end of the day. The phone should not be used on site and staff will speak with any pupils who use their phones whilst walking into or out of school.

Smart watches are also not allowed in school to support the safeguarding of our pupils as well as due to exam board rules when there are external examinations.

9. Staff using work devices outside school

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- ☛ Keeping the device password protected – strong passwords are at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters (e.g. asterisk or currency symbol)
- ☛ Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- ☛ Locking devices if leaving them and ensuring it will automatically lock after a short period of time of inactivity
- ☛ Not sharing the device among family or friends
- ☛ Installing anti-virus and anti-spyware software – this will be installed by the ICT manager or ICT technician
- ☛ Keeping operating systems up to date by always handing in devices when requested.

Staff members must not use the device in any way that would violate the school's terms of acceptable use.

Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the ICT manager.

10. How the school will respond to issues of misuse

Where a pupil misuses the school's ICT systems or internet, we will follow the procedures set out in our policies on ICT use, child protection and safeguarding and behaviour. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school's ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff code of conduct/disciplinary policy. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

11. Training

All new staff members will receive training, as part of their induction, on safe internet use and online safeguarding issues, including cyber-safety and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- 🌿 Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- 🌿 Children can abuse their peers online through:
 - 🌿 Abusive, harassing and misogynistic messages
 - 🌿 Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
 - 🌿 Sharing of abusive images and pornography, to those who don't want to receive such content
- 🌿 Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- 🌿 Develop better awareness to assist in spotting the signs and symptoms of online abuse
- 🌿 Develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- 🌿 Develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSL and members of the DSL team will undertake child protection and safeguarding training, which will include online safety, at least every two years. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

12. Monitoring arrangements

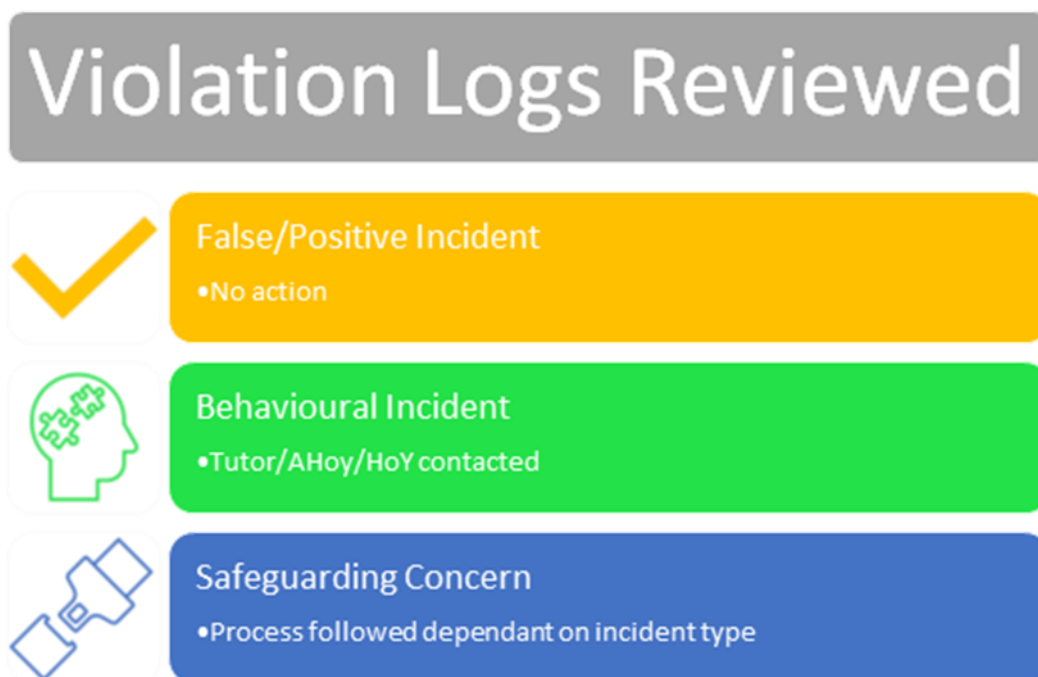

Safeguarding incidents are monitored closely by the DSL and the DSL will regularly liaise with the ICT manager and ICT technician to ensure that all concerns are being reported and recorded.

The school monitors ICT use in order to:

- ✿ Obtain information related to school business
- ✿ Investigate compliance with school policies, procedures and standards
- ✿ Ensure effective school and ICT operation
- ✿ Conduct training or quality control exercises
- ✿ Prevent or detect crime
- ✿ Comply with a subject access request, Freedom of Information Act request, or any other legal obligation
- ✿ Safeguard children

Two filters are used on all devices and this is kept up to date by the ICT services team, with support from the DSL if there are new terms and phrases they need to be aware of.

The school uses a monitoring system on all devices to aid safeguarding children. This monitoring system automatically takes screenshots of a user's device when a keyword, phrase, URL or acronym is accessed/used and matches the system's own keyword libraries, keyword libraries and URLs from the Internet Watch Foundation and URLs from the Counter-Terrorism Internet Referral Unit. Violations are automatically logged with ICT services and the Assistant Heads of Year check these and action any response they decide upon via CPOMs or The Head of Year. Violations will be recorded in the following way:

The Assistant Heads of Year will monitor the alerts that are raised by our filtering and monitoring system. They will monitor their own year group on a weekly basis (SENSO). In fortnightly

meetings, this will be discussed with the DSL. Staff members using devices with students are expected to use SENSO in the classroom, so they can monitor what the students are accessing. This should not be relied upon though and so they are expected to tour the room to visually check computers and devices.

This policy will be reviewed every year by the DSL. At every review, the policy will be shared with the governing board. The review (such as the one available [here](#)) will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

13. Links with other policies

This online safety policy is linked to our:

- ✿ Child protection and safeguarding policy
- ✿ Behaviour policy
- ✿ Staff disciplinary procedures
- ✿ Data protection policy and privacy notices
- ✿ Complaints procedure
- ✿ ICT and internet acceptable use policy

Appendix 1: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
Name of staff member/volunteer:	Date:
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents/carers?	
Are you familiar with the filtering and monitoring systems on the school's devices and networks?	
Do you understand your role and responsibilities in relation to filtering and monitoring?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?
